here today when 167 trainmen,

Men Quit Work at Palestine
Simultaneously 35 men quit work
at Palestine, Texas. 15 men went
out at San Antonio at noon in the
local yards there.

It will be impossible to learn the
total number of men on the road who
walked out until reports are received
from train crews at various points
along the road.

Union officials here declared sev-
eral hundred men went out. The
walkout here was spontaneous. The
men dropped their tools as the
noon whistle started to blow. In a
statement issued shortly before
noon today in San Antonio union
officials estimated the strike would
be about 100 per cent, about 600
workers going out.

American Consulate To Prevent Any
Disorder—Bomber Is Known

By WEBB MILLER
United Press Correspondent
Paris, France, Oct. 22.—Thousands
of French Communists are planning
to march on the American Embassy
here tomorrow afternoon, police re-
vealed here today.

Communist leaders have sent out
orders naming eight streets through
which the Reds plan to converge
upon the embassy in a gigantic dem-
onstration against the conviction of
Sacco and Venzetti, Italians and
members of the Communist organi-
zation, charged with the murder of
a paymaster at Braintree, Mass.

Will Protect Embassy
Police are perfecting plans to
throw a cordon around the whole
embassy district. Thousands of po-
lice and mounted officers will be
used.

The Communists are in an ugly
mood today according to their news-
papers. They charge that the police
themselves threw the bomb at the
mass meeting at the Salle Wagner
last night which slightly wounded
16 persons. Police deny this and say
the bomb was thrown at police who
broke up a column of Red who
started to parade after the meeting
was over.

Know Who Sent Bomb to Herick
Police say they have secured the
description of the man who sent the
bomb concealed in a perfumery pack-
age to Ambassador Herick last
Wednesday. They say he is a well-
known anarchist. 60 letters and re-
solutions bearing on the Sacco-Van-
zette case were received at the Em-
bassy this morning.

PROPOSALS READY FOR SUBMISSION TO BOTH SIDES

Rail Labor Board Has
New Set of Proposals
For Both Union
And Rail Heads

MEET WEDNESDAY

By CARL LITTLE
United Press Staff Correspondent
Chicago, Ill., Oct. 22.—Definite pro-
posals for the settlement of the rail-
road strike were formulated to-day
by the United States railroad Labor
Board for submission to the Union
heads and rail executives at their con-
ference here next Wednesday.

The proposals for calling off the
general rail walkout, scheduled to
start October 30th, are based mainly
on the proposals submitted to the
union chiefs alone at their conference
here earlier in the week. Failure of
the conference with union chiefs the
Rail Labor Board members believe,
was due to the fact the executives had
not yet agreed to the proposals of
immediate reduction of freight rates
according to the July 1st wage de-
crease and the withdrawal of their
determination to ask for further wage
reduction immediately.

made in the courts and elsewhere to
throw over my recent order prohibi-
ting the sale of articles used by home
brewers. You may be sure that when
these efforts are made we will be

De Valera's Note To The Pope
And Arrest Of Gun Runner
Complicates Matters

IRISH DEVELOPMENTS

London, Eng., Oct. 22.—A new
threat of disruption faced the Irish
peace conference today. A possible
deadlock existed following a clash on
the following subjects:

First: The note DeValera sent to
Pope Benedict.
Second: The arrest of a gun run-
ner whose papers proved the Irish
Republican Army was importing
arms from America throughout the
recent truce.
Third: The proposition of alle-
gence to the Crown.
Fourth: The Ulster program.
The threatened break may force
Premier Lloyd George to postpone
his visit to America. It is reported
that differences have arisen between
Lloyd George and Field Marshall
Wilson over the Irish development.

TO ENFORCE LAW

Mayor Chase and his Police De-
partment has finally completed the
work of placing "School Zone" traf-
fic signs in all the school districts
or zones of the town and automobile
drivers generally are not only urged
to but will be made respect same.
There is entirely too much reck-
less and careless driving over the
streets of Clearfield and the Mayor
will be generally supported in the
most drastic enforcement of the
automobile and traffic laws.

These "school zone" signs are
large and prominently located and
can be easily seen by all automobile
drivers. Our schools are located be-
tween Market and Cherry on Front,
between Fifth and Cemetery Road,
between Walnut and the Point on
South Second, on Spruce, in the
Third Ward and between Daisy and
Dorey street on Eighth street in the
Fourth Ward. The streets for at
least one square four ways from
these school buildings are considered
"school or danger zones" and with
proper care in these section by mo-
torists will reduce the danger of ac-
cident to a minimum.

DUBOIS MAN CLAIMS POLICEMAN GOT HIS MONEY AND JEWEL

According to information made
before Justice of the Peace John M.
Bain, by a DuBois resident, it cer-
tainly is "dangerous to be safe" in
the third class city these days.
John J. Carson, a prominent busi-
ness man of DuBois, alleges in a com-
plaint lodged with the Justice that
on October 17th last former County
Detective Hugh Jeffries now a police
officer of DuBois, armed with an
instrument commonly known as a
mace, did feloniously assault him and
wrenched from his shirt bosom a
diamond stud, valued at \$1000, and
at the same time also abstracted
from his pocket the sum of \$385 in
money.

Constable Sunderlin went to Du-
Bois and arrested Officer Jeffries,
who entered bail for court, and the
whys and wherefores incident to the
startling occurrences will doubt be
given an airing at December term
of criminal court.

A. L. DeVine and little son,

FIRE DESTROYS M. E. CHURCH AT BROOKVILLE

Blaze, Originating In
Boiler Room, Dooms
Structure Despite
Work of Firemen

BUILT BY LOCAL CONTRACTORS

Firemen Confine Blaze
To Church Edifice—
Loss Is Estimated
Close To \$80,000

Fire believed to have originated
in the boiler room of the First
Methodist church at Brookville, com-
pletely destroyed that handsome
structure last night, entailing a loss
of over \$80,000. The fire was dis-
covered about 9:15 o'clock. It was
under such headway when discovered
that the efforts of the Brookville
fire department were of little avail,
although the firemen succeeded in
confining the flames to the church
edifice alone.

The church building destroyed was
one of the finest in the Erie coun-
ty. It was of Gothic design and
constructed of Indiana limestone.
The structure was 114x74 feet and
was erected ten years ago at a cost
of \$81,000. It is estimated that it
could not be replaced today for less
than \$200,000. The architect was
Samuel E. Bailey, of Oil City and the
contractors were Kenyon and Hart,
of Clearfield. The pipe organ cost
\$500 and the interior was finished
in quartered oak. The amount of in-
surance carried is not known, but it
is believed to be in the neighbor-
hood of \$70,000.

Olcott was elected manager of the
association.

In the past the business of the co-
operative Association, formed to
give the farmers of Clearfield county
the opportunity of sharing in the
benefits of co-operative buying and
selling, has been handled through
the Farm Bureau. However, during
the past few months the volume of
business increased until it became
necessary to select a manager to
give his entire attention to the pro-
ject and Manager Olcott was elected.
J. W. Olcott is a graduate of the
Delaware State College, and has had
considerable experience as a sales-
man for the Adams Co. Fruit Pack-
ing and Distributing Co. of Bigler-
ville. He comes highly recommended

tunate in securing his services for
this important post.

Fire Laddies Make Fast Run But Are Unable To Find Any Fire

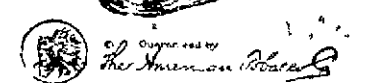

Alarm Sent In From Fourth
And Cherry Streets But
Smoke Is All Firemen
Are Able To Discover

The fire alarm was sounded about
7 o'clock last evening for a fire re-
ported to the telephone exchange
girl from District 23, which centers
at Fourth and Cherry streets. The
firemen were on the spot within a
few seconds of the completion of the
signal for the district but could find
no fire.

A huge volume of smoke was pour-
ing from a flue in the neighborhood
when the firemen arrived and it is
thought this smoke led an excitable
neighbor to decide the house was on
fire and had the alarm sounded ac-
cordingly.

ship's progressive school directors,

It is surprising that someone did not think of it sooner now that knitted sweaters and one-piece rocks have supplanted the indispensable sweater and skirt. The knitted cape made its debut this season and bids fair already to divide honors with the sweater. These capes are made in both quiet and high colors, with deep collars of elegant wool, in white or colors and are worn as sweater and winter coat by young and old. They are decidedly easier in the wardrobe and have no need to stay for some time. The introduction of accordion stitching in the collar of garments means a great deal in additional comfort and ease to them.

One of the new models in knitted dresses is shown in the picture above. It has a high shawl collar, a long open front with wide shawl collar and a full skirt.

We will find them among the best liked of summer blougns. They have the informal character in comparison with elegance and beautiful color which has made the sweaters of it a universal favorite.

AN ENCOURAGING ADVANCE

Early in the legislative session of 1921 Representative Bluet, of Philadelphia, introduced a bill on Humane Education, the text of which has been furnished by the writer.

The interest of Dr. Thomas E. Finegan, Superintendent of Public Instruction for the State, having been enlisted, he suggested a change which would add humane teaching to other amendments required in the general school laws. Accordingly a substitute bill was introduced by Representative Beckley, of New Cumberland, amending the school laws, in which was a paragraph which reads as follows:

"Section 1607. In every elementary public and private school established and maintained in this commonwealth, the following subjects shall be taught in the English language and from English texts" (here follows a list of the usual school studies) "including * * * the humane treatment of birds and animals."

This gives humane education the same standing as other studies in elementary public and private schools, and therefore, in such schools it is as compulsory as other studies. Under the school laws of the State, the Superintendent of Public Instruction is empowered to enforce the school laws.

"There should be no more question of giving humane education to every child than there is of teaching him to read," are words which have been written and spoken hundreds of times by the writer. She is therefore thankful for the present amendment as a step in the right direction, although she believes that the teaching should be given during the entire period of school life, which would include advanced as well as elementary grades. It cannot begin too early, for lasting impressions for good or evil can be made even in infancy; and there is no period in later life, when consideration of the broader features of humaneness is superfluous.

Dr. Finegan has announced that in his forthcoming course of study, humane education will have its proper place. He has expressed to the writer his approval of humane teaching in the kindergarten.

In the public schools anything approaching denomination or religious teaching is very properly prohibited. But in addition to the initial step of awakening the sentiment of compassion by means of humane education, related fundamental principles can be taught, such as unselfishness, justice and the Golden Rule. Unselfishness, the antidote to that primal egotism which regards the animal world as its slave; justice based on the recognition of the right of all sentient creature to be saved from cruel treatment, and the Golden Rule, as the culminating standard and test of our conduct toward man and beast.

Department of Humane Education,

STRAIGHT TALK

(Extract from address of Wayne B. Wheeler, LL.D., general counsel Anti-Saloon League of America, at the State Sunday School Convention, Altoona, Pa., October 12, 1921.)

The Keystone State is at the crossroads on law enforcement. It must choose between orderly and disorderly government, between law enforcement and lawlessness.

There can be no exceptions when we face the constitution. no patriot can be loyal to it and exclude the Eighteenth Amendment. Those who defy the prohibition amendment have no right to ask for the protection of other laws when their personal and property rights are violated. Life, a higher regard for their oath of liberty and happiness are insecure. The State must not shrink its when law and its enforcement fail. duty is enforcing prohibition. Uncle The maintenance of the blessing of law cannot be all. Concurrent governments and refuse to share its power to enforce prohibition means

work between the state and nation.
Good citizens must learn and live the American's Creed. Those who will not love our glorious country, its constitution and its laws, should leave this land of civil liberty for some paradise of personal liberty whose only guarantees are the carcases of liberty. We must write it into the hearts of the people that obedience to law is liberty, that defiance of law is anarchy. This country must not be ruled by the reds, who would destroy orderly government; nor by the Blues, who would make it entirely joyless; it must be ruled by the Red, White and Blue, the emblem of loyalty to the constitution and obedience to law. The United States, sober and law abiding will be permanently the greatest nation in the world, economically, socially and morally it will inspire the world to follow our example.

Even in ordinary life the unselfish people are the happiest—those who work to make others happy and who forget themselves. The dissatisfied people are those who are seeking happiness for themselves.—Mrs. Bonant.

HOUSEHOLD HINTS.

The leather cushions of chairs and couches may be treated with ordinary tan or black shoe dressing, the cleanser and polishing wax. Rub it in with great care and scratches and stains will be removed, the leather preserved and made new looking.

The leftover pancakes broken in bits and added to scrambled eggs make a palatable dish and a saving on eggs.

Before roasting the leg of lamb place it in a kettle with one-fourth of a cupful of rice, salt, pepper and one onion, celery and parsley; add two quarts of water and simmer one hour. Remove and toast as usual. The broth will make a delicious soup.

Old hair brushes may be renewed when soft by dipping the bristles into a strong solution of alum water.

Hair brushes are good to clean the brushes in the carpet sweeper.

When rendering lard grand it through the sausage grinder and there will be much less waste. They will do this at small cost at the market if you request it.

Casters which drop out from furniture can be fixed by putting in a little hot paraffin and inserting the caster while the paraffin is hot.

Scow strips or old rubbers on the corners or sides of rugs that bother about shipping.

To remove wall paper from walls a thin paste put on hot will soak the paper and will not dry as quickly as clear water.

A large pink-lined sea shell makes a pretty receptacle for a bunch of growing violets or violets and ferns.

To mend alcohol, kerosene or gasoline that has become cracked, place a strip of adhesive tape under the crack, bringing the edges together, then put under a weight to dry.

Use any bits of leftover paint to paint the inside and outside of the garbage can. It will keep it from rusting.

House ferns, if steamed by setting them in a pan of rather hot water once a week will throw out new shoots very soon.

Three girls and two uncles were visiting at Dorothy's home one Sunday recently, and the unmarried state of the guests as well as of her own brothers and sisters set the little one thinking. It is by the outstanding game of a big football day and is one of the most important intersectional game of the season as it marks the first correlations between the western conference and the "Big Three."

Birds and Cynjones.
One naturalist has expressed the opinion that birds habitually make use of stories in traveling from one part of their range to another. He points out that if a bird cannot find shelter it must be more comfortable on the wing than on the ground during a storm, because in the fiercest gales the air, as a mass, is at rest; that is, the bird is in a moving supporting medium, like a swimmer in a strongly-flowing river.

Birds Like Old Homes.
Birds have in common with man the "homing instinct," although of course in man the instinct is not so fully developed. Just how Mr. and Mrs. Bird on their return to the north find their nests each spring is not known. Their ability to locate the "old home" is simply a part of their homing instinct. Without charts or compasses to point the way the birds fly unerringly to their old haunts each spring.

Diaphanous Tissue Defects.
A diaphanous check is considered a mark of beauty, but in reality it is caused by a defect in the tissues which lie under the skin. The diaphanous is a dent or depression in the skin on a part of the body where the flesh is soft. The tissue under the skin is composed of fibers which help to hold the skin firm. These fibers are not of uniform length, and sometimes there will be a collection of the shorter fibers all in one spot.

Thomas Beahan, Well Known Resident, Dies

Thomas Beahan, Sr., one of the oldest and most highly respected residents of this section, passed away at his home on Ogden Avenue last evening about 6 o'clock in the 87th year of his age. Death was due to a complication of kidney and liver troubles.

The deceased, who was a native of Ireland, had resided in this community during about all of his adult life. He followed lumbering and farming in the early day, and was an honest, upright, respected, good citizen. He resided on Hillsdale, in Lawrence township for many years, later removing to his present family home on Ogden Avenue.

He is survived by his widow, four sons and three daughters: Frank, John, Thomas T. and J. Sheridan, Beahan, all of Clearfield; Mrs. Mary Mary Delaney, of DuBois, Misses Ella and Anna, at home.

He was a life long and highly consistent member of the Catholic church and his funeral will be held from St. Francis, church Monday morning at 9 o'clock. Interment in Calvary cemetery.

C. I. C. ENTERTAINS

One of the most delightful affairs of the season which was given by the C. I. C. Class of the West Side Methodist church, was a delicious oyster supper at View Point Club.

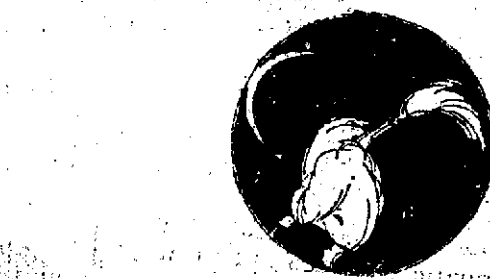

After the serving of the supper, tables were cleared and games of various nature were enjoyed by the crowd. The evening's entertainment terminated with a "marshmallow roast" before the open fireplace.
